

BTRA PUBLICATION

**“GLOBAL CHALLENGE VIS-À-VIS PERFORMANCE LEVELS OF MODERN BLENDED YARN SPINNING MILLS IN INDIA”**

**[134 pages, Rs. 350/- per copy, MAY, 2005 Release]**

BTRA staff, during their visits to reputed modern spinning mills situated all over India, collected various information regarding quality, production, maintenance, power, manpower and inventory. In addition, fibre/yarn samples are also collected from these mills and tested for various properties at BTRA Test Laboratories.

Based on the study, for modern cotton spinning mills, BTRA has brought out a publication on '**Global Challenge vis-à-vis Performance Levels of Modern Cotton Spinning Mills in India**', which is well received by the industry. The study gives the detailed status report and variability in machinery set up, raw material/ yarn quality, productivity, power consumption and manpower between mills and the reasons there of.

On similar lines, another publication related to **modern blended yarn spinning mills is released now**. The title of this publication is '**Global Challenge vis-à-vis Performance Levels of Modern Blended Yarn Spinning Mills in India**'. This publication is an excellent data bank and provides valuable information on all aspects concerning quality, production, maintenance, power, manpower and inventory of modern blended yarn spinning mills in India. **The contents of this publication are given in the next page.**

The price of these publications is given below.

Publication name	Price per copy (Rs.)	Postal and forwarding charges (Rs.)	Total amount to be paid per copy (Rs.)
1) Global Challenges vis-à-vis Performance Levels of Modern <b>Blended Yarn</b> Spinning Mills in India [ <b>Released Now, i.e. May, 2005</b> ]	300.00	50.00	350.00
2) Global Challenges vis-à-vis Performance Levels of Modern <b>Cotton</b> Spinning Mills in India [ <b>Released in February, 2005</b> ]	300.00	50.00	350.00

**Please note that publication will be sent upon advance payment. No VPP is allowed.**

❖ **DEMAND DRAFT** may be sent in the name of 'The Bombay Textile Research Association' payable at Mumbai to the following address.

# CONTENTS

## **1. Introduction**

## **2. Quality**

- Man-made Fibres Quality
- Yarn Quality
  - ♣ 100 % Polyester Yarn
  - ♣ 100 % Viscose Yarn
  - ♣ Polyester/Viscose Yarn
  - ♣ 100 % Acrylic Yarn
  - ♣ Polyester/Cotton Yarn
  - ♣ Dyed Cotton Yarn
- Classimat Faults For Cone Yarn

## **3. Production Set-Up**

- Machinery Profile
- Mixing Preparation
- Production and Process Parameters
- Efficiency and Utilisation Levels
- Spindle Productivity at Ring Frame
- Waste Levels and Yarn Realisation

## **4. Humidification**

- Air Changes
- Environmental Conditions

## **5. Maintenance**

- Maintenance Cost
- Type of Card Wires Used
- Grinding Schedule
- Card Wire Replacement
- Cot Buffing
- Apron Changing
- Oil Consumption in a Spinning Mill (Case Study)
- General Cleaning

## **6. Power**

- Power Consumption
- Departmentwise Power Consumption
- Power Rate / Lux Level
- Energy Saving Measures Adopted

## **7. Manpower**

- Overall Manpower Employed
- Labour Employment Basis
- HOK and OHS Levels / Wages

## **8. Inventory**

- Work in Process (WIP) Inventory
- Material Content of Various Containers / Holders
- Material Containers / Holders Requirement
